GOVERNMENT OF INDIA
SKILL DEVELOPMENT AND ENTREPRENEURSHIP
LOK SABHA

UNSTARRED QUESTION NO:3787
ANSWERED ON:09.08.2017
Discontinuing of PMKVY
Nishank Dr. Ramesh Pokhriyal

Will the Minister of SKILL DEVELOPMENT AND ENTREPRENEURSHIP be pleased to state:

(a) whether the Ministry proposes to discontinue PMKVY in some States of the country including Uttar Pradesh and Haryana and if so, the details and the reasons therefor;

(b) whether any competent monitoring mechanism has been set up by the Ministry for providing employment to the trainees after completion of training, if so, the details thereof; and

(c) the steps taken by the Government to deal with the complaints regarding granting admission to the same students in various skill development programmes?

Answer

(a) After reviewing of Pradhan Mantri Kaushal Vikas Yojana (PMKVY), it was observed that target allocation has crossed the State and Sectoral ceiling of targets in case of few States and Sectors. The aberration caused because of this, resulted in a temporary hold on target allocation in few States including the State of Uttar Pradesh and Haryana. The high inflow of franchise centre in skill ecosystem has led to sectoral skewness in the allocation of targets. As per PMKVY (2016-20) guidelines only first level franchising is allowed with lower priority and it would be gradually phased out.

(b) and (c) Under PMKVY 2016-20, the focus on employment has been significantly enhanced. The Scheme has provision for Skill Development Management System (SDMS) to monitor and track details of the trainees like their name, personal details, location, course taken, post placement details. This also helps in prevention of duplication of candidates. The last 20% payment to training partners would be made only after Employment (both wage and self) on an annual basis of at least 70% of the successfully certified candidates within three months of completion of training, with at least 50% of the trainees passing out being placed in wage employment. The Government of India has launched the National Labour Market Information System (LMIS) on the 15th July 2016. The database of all training is also being aggregated under LMIS to improve monitoring and prevent duplication etc.
